Appreciation with BluePoints

Monil,

A belated welcome to the team, and a big thank you for everything you've done so far. Although you've only been with the team for a short time, I've been impressed by your work so far. Everything I've looked at from you has been well thought out, well written and well done from a technical point of view. I expect this is only going to get better going forward, and I'm looking for big things from you in the future!
